“Hash Flash”

Loitering on street corners and hiding behind bushes, waiting to pounce and flash his big long lens at any poor, unsuspecting Hasher who happens to be passing by!

Fake Alias: Bryan Dale

Hash Name/Handle: *Flasher*

Rather obvious this hash name, methinks!

First Hash: Around one of my favourite places, Apedale Country Park. Ken Richards dragged me along, I had no idea what to expect. I was a real innocent - I had never known anything at all about hashing previously but I was immediately hooked.

At last - Flasher got caught with his lens down!

Ex-Hash Memberships: None - I was born and bred or “dragged up” in ‘Castle (up Neck End as we say) and so my first and only hash membership is with the best of the best, Potts H3.

Hash Visits: None - probably banned from waving my big lens around any other H3s outside North Staffordshire.

Special Event Hashes: I am on a short lead at the moment so maybe I’ll get to go on one sometime in the future!?!)

Potteries H3 Member - - - since Jan/Feb 2005.
